

# Dual Axis Torque Hinge

## HG-TMH

SUGATSUNE

- A torque hinge that can be opened 180°.
- Shafts do not protrude when the hinge is fully opened or closed.
- Easy to operate as the two shafts have different torque and move one at a time.
- Ideal for folding tables in shops, food trucks, kitchens, trains, RVs, etc.

When fully opened.

Lays flat so shafts do not protrude.  
No visible screw holes when closed.

Hinge Movement
